Daubert Tracker - Case Reports

Expert Name: "Dr. Mehrdad Golzad M.D.

Discipline: Neurology

Case Name: A. Angonoas, Inc.

Citation: *; 2005 NY Wrk. Comp. LEXIS 2758*

Docket Number: 0992 6945,W165005

Area of Law: Workers Compensation

Jurisdiction: State

Court: New York State Workers' Compensation Board

Counsel: Not Mentioned, Not Mentioned

Judges: Leslie J. Botta, Scott C. Firestone, Ellen O. Paprocki

Disposition: Testimony properly found insufficient to support claim; affirmed.

Retained by: plaintiff

Case Summary: According to the decision dated March 28, 2005, it was stated that Dr. Mehrdad Golzad, the claimant's attending neurologist, testified on August 27, 2004 that he first examined the claimant on April 1, 1999, and had most recently examined the claimant on August 19, 1999. Dr. Golzad noted the claimant's complaints involving the low back and the feet. Dr. Golzad indicated that, although some diagnostic studies were performed, he was unable to arrive at any definitive diagnosis. Dr. Golzad further testified that he could find no definitive reason for the claimant's problems. It was further stated that The transcript of the October 6, 2004 hearing reveals that, after reviewing the testimony of Drs. Soren and Golzad, the WCLJ found, based upon the totality of the record, that there is no credible evidence of a work related injury involving the back or the feet. The judgment was affirmed.

Daubert Tracker - Case Reports

Expert Name: "Dr. Mehrdad Golzad M.D.

Discipline: Neurology

Case Name: Capsule Pharmacy

Citation: *; 2019 NY Wrk. Comp. 2366161,2019 NY WRK. COMP. LEXIS 10493*

Docket Number: 236 6161,W017255

Area of Law: Workers Compensation

Jurisdiction: State

Court: New York State Workers' Compensation Board

Counsel: Not Mentioned, Not Mentioned

Judges: Fredrick M. Ausili, Arelis Tavares, Samuel G. Williams

Disposition: Testimony found less credible.

Retained by: plaintiff

Case Summary: According to the decision dated August 20, 2019, it was stated that By report dated December 13, 2018, the claimant's Dr. Golzad diagnosed post-concussion syndrome, ruled out traumatic brain injury and concluded that the claimant is ""100% disabled"" following administration of the Montreal Cognitive Assessment. Dr. Golzad stated that: ""The total possible score is 30 points; a score of 26 or above is considered normal."" The claimant scored a 27/30, with the results ""suggestive of cognitive deficit in... memory."" By report of March 18, 2019, Dr. Golzad noted that: ""The patient's headache disability index was 32%,"" and continued to find a 100% disability. It was further stated that In this case, the Board Panel credits the February 27, 2019 findings and opinion of Dr. Goldenberg over those of Dr. Golzad, as the claimant's cognitive testing score does not correspond to a 100% impairment. Therefore the Board Panel finds, upon review of the record and based upon a preponderance of the evidence, that the decision will be modified to direct awards at the 75% temporary impairment rate beginning February 27, 2019.

Daubert Tracker - Case Reports

Expert Name: "Dr. Mehrdad Golzad M.D.

Discipline: Neurology

Case Name: Krynski V. Chase

Citation: *; 2016 U.S. Dist. LEXIS 30056,2015 WL 12615405,2016 WL 6247322,2016 WL 6566323,2016 WL 6138779,2016 WL 6600158,2016 WL 3996814,677 Fed. Appx. 24,2017 U.S. App. LEXIS 2780*

Docket Number: 1:06-CV-04766,16-1090

Area of Law: Personal Injury

Jurisdiction: Federal

Court: United States District Court For The Eastern District Of New York, United States Court Of Appeals, Second Circuit

Counsel: Michael Flomenhaft, Keith A. Raven

Judges: Ann M. Donnelly, Vera M. Scanlon, Pierre N. Leval, Guido Calabresi, Susan L. Carney

Disposition: Testimony not relied upon at trial; affirmed on appeal.

Retained by: plaintiff

Case Summary: According to the Brief And Special Appendix For Plaintiff-Appellant, it was stated that The District Court's discrediting of every one of Plaintiff's medical and scientific witnesses on the sole basis that they were hired for litigation is factually wrong (Drs. Eingorn, Lipton, and Golzad were treating doctors and the records of Drs. Boppana and Ryder are those of treating doctors). It also bespeaks a pre-conception regarding witnesses of a plaintiff that makes fairness and justice impossible to achieve. The blind and unfair reflexiveness of this mindset is shown by the Court's failure to apply any such presupposition to the accident reconstructionist and biomechanical engineer hired for litigation by the defense. The judgment was affirmed.
