AFFIDAVIT OF MICHAEL JURKOWICH, M.D.

STATE OF NEW YORK)
: ss.
COUNTY OF NASSAU)

Michael Jurkowich, M.D., being duly sworn, deposes and states that the following is true subject to the penalties of perjury.

1. I have personal knowledge of the statements made in this affidavit and would testify as to them in a court of law if called upon to do so.

2. I have been a licensed physician in New York since 2013. I am board certified in physical medicine and rehabilitation.

3. I have been represented by my own counsel in connection with the preparation of this affidavit. This affidavit is not intended to be an exhaustive account of my experiences working as a physician.

4. In addition to rendering medical services on behalf of other medical practices, I am the listed owner of Atlas Rehabilitation Medicine, PLLC ("Atlas Rehab"), which I incorporated in July 2021.

5. In 2016 I was working for Mikhail Kogan, M.D. in a practice known as Pain Solutions. While working in that practice I met Svetlana Kovaleva, a/k/a Melana Kay. I also worked on a part-time basis at Queens Medical Diagnostics, P.C. during the years 2016 through 2018. In 2018, I began working full time for CitiMedical, PLLC ("CitiMed"), and in 2020 I resumed part time work for Queens Medical Diagnostic, P.C. ("Queens Medical"), performing patient evaluations and EMG and NCV services. While working for Queens Medical, I again encountered Melana Kay ("Kay") who had management and billing responsibilities relating to

Queens Medical and as a result, she had access to information relating to my NPI number and medical license.

6. Towards the end of 2020 and beginning of 2021, I was growing tired of working for practices owned by others. I spoke with Kay, and she mentioned an opportunity she could facilitate, where I could treat no-fault patients at several clinics located in the Metropolitan area. Kay helped me get started by introducing me to individuals who ran clinics where she claimed I could treat no-fault patients.

7. The clinics Kay had relationships with, included, but were not necessarily limited to: (i) 152-80 Rockaway Boulevard, Queens; (ii) 3000 Eastchester Road, Bronx; (iii) 37-03 92nd St., Jackson Heights, New York; (iv) 607 Westchester Avenue, Bronx; (v) 30 South Central Avenue, Valley Stream; (vi) 243-51 Merrick Boulevard, Queens; and (vii) 102-34 Atlantic Ave, Ozone Park New York(collectively, the "Clinics"). In light of this, I formed Atlas Rehab, and with the assistance of Kay I began treating no-fault patients at these Clinics around May 2021. While working at these Clinics, I learned that there were certain expectations for a medical physician, in order to continue to operate from the Clinics. Specifically, physicians were told that the healthcare providers who treated patients at these clinics were expected to use "specialty" pharmacies as I was told that not all pharmacies would accept no-fault insurance and therefore, I was directed to use specific pharmacies.

8. I last treated patients at these Clinics under Atlas Rehab on or around June 2023. I ceased rendering services after discovering that unauthorized prescriptions for pharmaceuticals and orders for durable medical equipment were being submitted to pharmacies and durable medical equipment suppliers in my name or in the name of my practice. After months of investigation I learned that such orders contained obvious forgeries of my signature and were being created by

nonprofessionals who were working at those clinics and from a unique IP address that is linked to Queens Village New York, where Melana Kay maintained her office. From that IP address I was able to identify dozens of instances when unauthorized access to my electronic medical record system had taken place, using my electronic record access credentials. It appears that Kay, along with other individuals who control those clinics used my name, license and the tax identification number of Atlas Rehab to bill for services and prescribe medication and durable medical equipment ("DME") that was never authorized by me or my staff healthcare providers and for which I had no knowledge.

9. While I did collaborate with Atlas's healthcare providers and did oversee and approve of prescriptions for certain medications and very limited types and amounts of durable medical equipment, I later learned that after I would approve of my healthcare providers' prescription recommendations and log out of the electronic medical record system, that someone else would reenter the system, access patient records and add additional pharmaceutical prescriptions. I also learned that somebody would log into the Atlas electronic medical records database between the time when my staff would recommend prescriptions and log out of the EMR system, in order to later enhance the number of prescriptions for many patients, with medications that I later learned my providers did not order. Lastly, I have now learned that forged hard-copy durable medical equipment orders would be created and processed for equipment that we never considered, let alone ordered, for our patients.

10. During the time Atlas Rehab rendered services, I rarely treated no-fault patients. During the period of time that Atlas Rehab billed for services, I employed approximately ten physician assistants ("PA") and/or nurse practitioners ("NP") treating patients. While I would have regular direct communication with my providers and would review all of their legitimate

prescriptions and orders before they were sent, I did not know that those legitimate orders and prescriptions were being altered "downstream" from the input of my providers and me. I also did not know that I was sometimes being provided with altered and fraudulent prescription recommendations, which were inserted into the patient records between the time my healthcare providers would log out of the electronic medical record system and the time when those records were delivered to me for prescription approval.

11. I acknowledge that I did hire Kay as the "Practice Administrator" for Atlas Rehab and she was paid for her services as Practice Administrator. In addition, she was paid for billing services provided through her company, Medical Evaluation Services & Billing, Inc. Further, she was paid through her company, Medical Consultation Services & Billing, Inc., for management services. In addition, only recently did I learn that there were additional payments made from Atlas Rehab to Avenue Medical Care Billing Services, Inc., another entity owned by Kay, that purportedly provided billing services. These payments, however, were not authorized by me and I was unaware they were ever deducted from Atlas Rehab's bank account.

12. Kay had possession of Atlas Rehab's checkbook, and along with myself had access to Atlas Rehab's bank account. She signed checks on behalf of Atlas Rehab with the use of my signature stamp. While I acknowledge that she was authorized to make certain payments from the Atlas Rehab bank account, I was unaware of the extent to which she used my signature stamp and accessed the bank account to transfer money from Atlas Rehab to herself and others for purposes that were never agreed or authorized by me.

13. I would typically speak with a number of my healthcare providers by telephone, text message, occasional email and occasionally I would visit a number of the clinic locations. While visiting the Jackson Heights location to verify that my practice was operating smoothly, I

found it strange that the office manager, Katia Smith would only speak to me in a very minimalist manner, and inquired as to why I had presented to the office without Kay. That was one of the things that led me to believe that Kay had greater control of Atlas Rehab than I ever authorized.

14. Additionally, it is my belief that the local clinic managers that Kay knew, ran these Clinics on a day-to-day basis. Based on discussions that I have recently had with some of Atlas's healthcare providers , I have learned that office managers at the Clinics, along with Kay, appeared to influence treatment, billing and prescription/referral protocols. The office managers that I recall include: The office managers that I recall include: (i) Tatiana Kolasheva (607 Westchester Avenue clinic); (ii) Irina Ustoyev (30 South Central Avenue and 102-34 Atlantic Ave, Ozone Park New York clinics); and (iii) Yan Kaziyev (243-51 Merrick Blvd. clinic).

15. Because I rarely treated patients under Atlas Rehab, I very rarely prescribed DME to no-fault patients, however, I have since come to learn that my name and forged signature was still used on certain prescription forms for DME, which was never authorized by me. For example, I never issued or authorized prescriptions for sustained acoustic devices ("SAM Units"), elec. osteogen stimulators or bone growth stimulators, pulsed electro-magnetic field therapy ("PEMF"), continuous passive motion machines ("CPM") and/or cold therapy units ("CTU"). Moreover, I learned that forms that I had legitimately signed for the purpose of prescribing a limited collection of commonly used DME equipment would be altered after I had signed the forms to include one or more unauthorized items that were uncommon and far more costly.

16. I also do not believe that I ever prescribed or authorized prescriptions for any custom fitted items, nor did I ever intend for any patient of Atlas Rehab to receive custom fitted items. As for less-expensive and more basic items of durable medical equipment, it would be very rare that a patient would need more than one or two items of such durable medical equipment, if

any. Yet, I have become aware that many bills were submitted for quantities of durable medical equipment that would never have been authorized by my providers or me or many bills were submitted for durable medical equipment I or my providers would not have authorized in the first instance, including: massagers, orthopedic car seats, EMS or TENS units, infrared lamps, heating pads, over the bed tables, shoulder supports, knee supports, bed boards, cervical pillows, dry pressure mattress, cervical traction and/or cervical collars.

17. In fact, I later learned that prescription forms with my signature seem to have been altered to include more complex and costly equipment such as the DME described above; and, I learned that my signature had been forged on other forms to order more expensive and complex equipment such as the DME described above; and, I learned that my signature stamp had been used in a manner that was never authorized, to order other durable medical equipment.

18. I never chose the DME entity to fulfill a prescription and I am not aware of any of the DME entities that filled DME items based on purported prescriptions from Atlas Rehab. It is my belief that Kay and others who controlled the Clinics decided which DME Entities would fill prescriptions purportedly issued by Atlas Rehab.

19. With respect to prescriptions for pharmaceuticals issued by NPs and PAs on behalf of Atlas Rehab, I would review and approve such prescriptions via Atlas Rehab's electronic records system. However, I was not involved or made aware as to what pharmacies were filling the prescriptions. I had no direct communication with the pharmacies themselves and I was not involved in choosing these pharmacies. It is my belief that Kay and office managers at the Clinics would direct which pharmacies to send Atlas Rehab's prescriptions for pharmaceuticals. I later learned that almost 100% of Atlas Rehab's pharmaceutical prescriptions were filled by only one pharmacy. In my professional capacity, I would not have sent prescriptions to just one pharmacy,

however. It also has come to my attention that although my prescriptions were electronically sent to the pharmacy, Kay and the office managers had access to the electronic system, altered prescriptions and prescribed unnecessary medications, including refills that should not have been prescribed.

20. While I do not know the identities of all the individuals responsible for the performance of the unauthorized services and submission of billing under Atlas Rehab, it is my belief that Kay and others to whom she introduced me were involved in the performance of the unauthorized services and the generation of the fraudulent billing that was submitted to automobile insurers because: (i) she had access to my information and that of Atlas Rehab, and (ii) she was the one that assisted me with getting started in the treatment of no-fault patients at the Clinics.

Michael Jurkowich, M.D.

Sworn to before me this
8 day of February, 2024.
